ANNUAL REPORT-2023

HOPDEV

Hope of refugee women against poverty for the social wellbeing

THE MESSAGE FROM OUR CHAIRPERSON

We are very excited to share with you our annual Report and make our work visible all over the World! The year 2023 was an extremely important year for us, full of new endeavors, challenges and victories.

As the Chairperson of HOPDEV' Board, it is my honor to highlight these key achievements of our team.

HOPDEV is more than a unique organization supporting highly marginalized women and girls in Dzaleka Camp. As refugee ourselves, we believe in transforming the power of refugee women and girls as important actors of changes, meaning that women and girls we serve are considered not as simple recipients of services and

support, but as actors of changes for themselves, families and their communities. We also believe that in order to make lasting change, vulnerable and marginalized women and girls need the skills and resources to build self-confidence, understand their rights, earn an income, and gain the respect of their family and community. In 2023, we have tested and evolved our work to ensure the most refugee women and girls and surrounding villages, survivors of wars have the ability and rights to stand on their accountability and solidarity.

This 2023 annual report intended to shows the record of what the organization achieved during the year. It also highlights the financial statement among others.

On behalf of HOPDEV team members, I would like to thank all our donors, Partners, supporters and allies for funding and empowering us and believing on our capacities! This is only the beginning of HOPDEV' long journey and being part of this process is amazing!

In solidarity,

Nina Kodia/ HOPDEV Board Chair
